

## Presentation of the Lycée Joliot Curie in France

Lycée Joliot Curie is a secondary school situated in a rural area next to the Belgian border, halfway between Brussels and Paris. The school has about 1000 students (professional, technical, general) and 100 teachers.

The school is composed of three main buildings: one building for the general school, one for the professional and technical and one with workshop for the professional teaching.

The students can pass a general, technical or professional baccalaureate.

Our school is involved in many mobility projects. Every year staff contributes to the conception of many travels in Europe (England, Germany, Spain ...) Moreover the school participated in an Erasmus + project to June 2017.

In the German and English lessons we are working about sustainability and all the students learn English. Their second foreign language is German or Spain.

The school is opening from 8.00 am to 18.00 pm. That's why the school proposes a lunch between 11.30 and 13.30 at the canteen.
